Abstract

A world's largest populous nation India can boast its population as a greatest workforce in the world in coming years. As India is emerging as a world's largest market of goods, consumers, buyers, customers, pharmaceutical products and consumer products. World is eyeing India as a consumer hub of the world. A third largest economy, India is the largest buyer's market for consumer goods, largest vehicular market in the world.

Young population is the cognizable workforce in coming years. India is producing world's largest learned and trained technical and non-technical youths. It is also said that the twenty-first century belongs to India.

KEYWORDS: cognizable workforce, consumer hub of the world

Introduction:

Vastly spreading malls, consumer centres, off-line shopping malls, on-line demand of consumer goods, sphere heading business centres is seen everywhere in Indian cities nowadays is the indication that India is really progressing on all fronts.

In early years of post-independence era, only agriculture was the chief occupation of Indian masses. The picture is quiet changed in recent years, after India underwent the economic reforms in 1991 afterwards the unstoppable journey continued till the date.

Theory and discussion:

Population is greatest strength of the nation which is youngest, dynamic, vibrant, vulnerable, active, and efficient as compared to the other's nation population.

India is a nation having largest markets, shops for consumer goods, shopping complexes, largest malls, and largest customers. India has largest chains of shops, consumer stores, customer care centres. All these helped India to become super buyer of the goods in the world.

India has largest co-operative banks, credit co-operative societies and nationalised banks, government banks for various schemes for poor and downtrodden. India has largest financing centres, agricultural banks, development banks. All these people's financial achievements helped India to scale a new height.

India is a nation having largest bank employees, largest bankers, largest agents, largest daily money collectors, largest financial institutions, insurance agents, insurance premium centres, personal life insurances policies, vehicle insurance policies. All these made India a world hub of various vehicles, vehicles showroom, and largest vehicular market in the world.

India is a nation having largest vehicles on the roads largest vehicle drivers, largest vehicle cleaners, largest vehicle maintenance managers, largest vehicle insurances, largest vehicle policies. India also has largest agriculturists, largest vehicle repairing centres, vehicle servicing centres, vehicle maintenance centres.

India is a nation having largest artisans, largest workers, largest daily workers, largest workforce that is dependent on agriculture and agricultural work. All these made India largest supplier of workers, artisans, service sector people provider of the world.

India is a nation having highest patients, highest cancer patients, highest T.B. patients, highest diabetic patients, and highest cardiac patients. On the contrary India has largest chain of pharmaceutical shops, drug shops, and largest pharmaceutical malls. India has a largest blood collector's banks, largest blood donors, and largest organ donors, largest body donors. India has largest hospitals, O.P.D.s, general patient's wards, largest pharmacologists. All these have made India largest consumer of pharmaceutical and drugs of the world.

India is having largest chain of professionals, largest engineers, largest doctors, highest charter accountants, highest IT professionals, highest hardware engineers, largest software developers. All these have made India a largest workforce in the field of software, hardware, firmware professionals in the world.

India is largest market of mobile-phone users. World's one fifth mobile-phone users are Indians. India is mobile-phone hub of the world. Almost every mobile-phone company has its outlets, stores, showrooms, retail sell shops in India. All these have made India a world's largest cell phone user of the world.

With the upcoming 5-G technology in the field of communication industry, India is all set to bank upon this new innovations and would become hero of the communication networking, mobile towers, and mobile service stations, number of mobile phone consumers, landline phone users, and regular mobile data users in the world.

Results and discussion

India is all set to become number one not in the field of military sector but communication sector, production sector, food production, food supplies, largest exporters of consumer goods, condiments, fruits, dry-fruits, etc.

All these achievements India can boast on the basis of its vast population. India is speedily emerging as a largest workforce of professions not in only IT sectors but in the fields of banking, teaching, various service sectors, etc. Only we will have to work hard for making India a great nation in the world.
